TACH-IT® 2 Tagging Tools:

- Internationally recognized as the premier tagging tools on the market.
- 4 unique and different style tools based on your specific tagging application.
- Utilizes the largest selection of tagging needles in the industry.
- Lightweight and ergonomic design with heavy duty construction.
- Accepts regular spaced (50 fasteners per clip) and micro-spaced (100 fasteners per clip) fasteners.
- Cap protects the needle and operator when tool isn't in use and there is a compartment for extra needles.
- Separate machined cutter for more reliable service.

Standard Tach-It 2:

Fine Tach-It 2:

Long Tach-It 2:

Long Fine Tach-It 2:

TACH-IT® Micro-Mini Tagging Tools:

- Available in standard and fine fabric models.
- Reliable and ergonomic operation.
- Accepts regular spaced (50 fasteners per clip) and micro-spaced (100 fasteners per clip) fasteners.
- Cap to protect the needle and the operator when the tool is not in use.
- Uses a variety of tagging needles with built-in cutters.

Standard Micro-Mini:

Fine Micro-Mini:

Standard Simba:

Simba Tagging Tool: (see photo above)

- Economical for retail and lower productivity tagging applications.
- Available in standard only. Uses a cutter style needle.
- Accepts regular spaced (50 fasteners per clip) and micro-spaced (100 fasteners per clip) fasteners.
- Has a cap to protect the needle and the operator when the tool is not in use.

Tach-It Style #	Description:	Applications:	Fasteners:
TI2S	Standard Tach-It 2 Tool	For most general tagging applications	All standard general purpose and heavy duty regular spaced and micro-spaced fasteners
TI2F	Fine Tach-It 2 Tool	For most tagging applications of delicate products	All fine fabric general purpose and heavy duty regular spaced and micro-spaced fasteners
TI2L	Long Tach-It 2 Tool	For thicker tagging applications such as hosiery	Most standard general purpose and heavy duty regular spaced and micro-spaced fasteners
TI2LF	Long Fine Tach-It 2 Tool	For tagging of thicker delicate products	Most fine fabric general purpose and heavy duty regular spaced and micro-spaced fasteners
Micro-S	Micro-Mini Standard Tool	For most general tagging applications	All standard general purpose and heavy duty regular spaced and micro-spaced fasteners
Micro-F	Micro-Mini Fine Tool	For most tagging applications of delicate products	All fine fabric general purpose and heavy duty regular spaced and micro-spaced fasteners
Simba-S	Standard Simba Tool	For lower productivity and retail tagging applications	All standard general purpose and heavy duty regular spaced and micro-spaced fasteners

Tagging Needles:

- Tach-It offers the best and largest assortment of tagging needles in the industry.
- Unsurpassed quality because it is the needle that penetrates the garment.
- For Tach-It and other tagging tools on the market.

D = Compatible with Avery Dennison Mark II and Mark III tagging tools and other tools on the market that utilize a cutter style needle.
* = Part number is comparable to Avery Dennison Tagging Needle
Dennison System 1000, Mark II and Mark III are trademarks of the Avery Dennison Corporation

TACH-IT® Tagging Needles:

- Premium needles – one piece solid steel construction.
- Thread separating tip avoids damages to garments.
- Silicone coated for easy insertion and removal from garments.
- Available in a variety of lengths, sizes and styles.
- Fits Tach-It 2 tagging guns and other tagging guns on the market that do not require a cutter built into the needle.
- Hi-Impact needles offer additional strength and support on the needle when penetrating hard items.

Pro-Tach Tagging Needles:

- Industrial grade needles – one piece solid steel construction.
- Thread separating tip avoids damages to garments.
- Silicone coated for easy insertion and removal from garments.
- Available in a variety of lengths, sizes and styles.
- Fits Tach-It 2 tagging guns and other tagging guns on the market that do not require a cutter built into the needle.

Simba Tagging Needles:

- Used with our Micro-Mini tagging tool, Simba tagging tool.
- Compatible with other tagging tools on the market that utilize a needle with a built-in integrated cutter.
- Available in plastic shank and one piece steel machined steel.
- Has thread separating tip for strength and to avoid snags or holes in garments.

Simba Specialty Tagging Needles:

- Special application needles (see chart below).
- Designed for use in tagging tools and automated machinery from various manufacturers.
- 4 Needles per package.
- All Simba specialty tagging needles have integrated built-in cutters.
