

Technical Specifications for Tach-It MN2 2" Economical Carton Sealer:

Description and Use of Product:

The Tach-It MN2 Carton Sealer (Tape Gun) is an easy to use device that assists in the applying of carton sealing tape to corrugated boxes and cartons. This device consists of a metal frame and handle and there is a core assembly to hold the roll of tape and a blade assembly also attached. The core assembly of this unit has an adjustable friction brake to ensure proper tension is on the tape and there is a spring loaded metal tape gate to keep the tape in the proper feeding position. To use, the operator places the front of the MN2 Carton Sealer on the side of the box so that the exposed end of the adhesive tape sticks to the corrugated. While keeping the roller located at the front of the dispenser against the box, the operator then pulls the MN2 over the side of the box, across the top, and then back down the other side and cuts the tape. A wiper located at the front of the MN2 adheres the end of the tape to the corrugated box.

Materials:

Manufactured of Metal and Hi-Impact Plastic.

Advantages:

Easy to use
Large Roll Capacity
Lightweight
Economical
Adjustable Tape Brake
Metal Tape Gate
Easy to Load
Works with Most Types of Carton Sealing Tape on the market.
Comfortable Handle

Dimensions and Specifications (without tape):

Length:	6.5 Inches
Width:	2.5 Inches
Height:	9.5 Inches
Weight:	1.05 Lbs
Core Size:	3 Inch
Max. Width of Tape:	2 Inches
Max. Diameter of Tape:	Holds a tape roll up to 110 Yards

Packaging:

Pieces per Case: 24 per case packed individually in a plain white box.

Country of Origin:

Made in China
